Address  
over

The object of this Society is to educate humanity out of priest craft superstition, which has been truly said by our latest Martyr **Francesco Ferrer**, of Spain—

**‘That Priest Craft has always been the Curse of Civilization.’**

I have been trying to form this Society for 6 years in Montreal, Canada, and here in England.

This bold truth—

**‘Freethought our only weapon for peace.**

**Justice its foundation and love its law.’**

Those interested in freedom  
apply at address given.
