

In the forthcoming elections.....

VOTE FOR NOBODY

Election-time is here again and we're being brow-beaten to take part. But most people, quite rightly, feel that all the Parties are the same - in it for their own power. They are convinced that all Candidates are irrelevant to their real problems and situation. NOBODY is different...

NOBODY WILL MAKE SURE EVERYONE HAS ALL THEY NEED
NOBODY WILL ENSURE DECENT HOMES FOR ALL
NOBODY WILL CREATE A GOOD ENVIRONMENT
NOBODY WILL PUT THE POWER BACK INTO THE HANDS
OF ORDINARY PEOPLE

Isn't this all just commonsense? Your feelings, your needs and your potential to organise and act are constantly undermined by all the Parties that exist. They only con and manipulate people in order to get influence for themselves. NOBODY believes in you....

NOBODY CAN DO FOR YOU
WHAT YOU SHOULD DO FOR YOURSELVES

SO....

VOTE FOR NOBODY

— you know it makes sense

IF NOBODY GETS IN IT'LL BE MUCH BETTER FOR ALL OF US

Come the election results, if most people vote for Nobody, we call on people to seize control of the Town Halls and all local services and resources. Support each other.

Together (with Nobody leading us) we can change our world

Real politics is alive wherever people organise and act for themselves - strikes, protests, self-help groups, solidarity and caring for each other...refusing to obey, to pay. Our world and our lives are being destroyed - FIGHT BACK NOW.

DON'T VOTE!

Yet again we are faced by a general election: "vote for me and everything will be alright blah blah blah". Every politician presents his/her soap powder, guaranteed to wash whiter than white! And nothing ever really changes...poverty, bad housing, pollution, bad telly programmes...No politician will ever make our lives better, more enjoyable. No politician will ever help us to gain control over our lives. All politicians (left, right, centre, up, down, in, out) are professional liars, only interested in power for themselves. Isn't it about time that we kicked out every politician and everyone else who tells us what to do and took control of our communities and our workplaces for ourselves?

10 GOOD REASONS WHY WE SHOULDN'T VOTE

1. Voting in any election helps to preserve the illusion of democracy. For a few seconds every few years we are allowed to make our 'free' choice: who will rule us?
2. How can anyone believe party political broadcasts, full of lies and promises that are soon broken? They should be prosecuted by the Advertising Standards Authority.
3. Just think, if no-one voted, then there would be no more party political broadcasts!
4. There is no-one who can run our lives better than ourselves - so why then should we give others the power to decide how we should run our lives?
5. Voting is a clever way of getting us to sign our names to a whole series of measures when we are only aware of a few of them.
6. What is the point in voting when real power in this country (like every other country) lies in the City, in the multinational boardrooms? Politicians are little more than puppets of the rich, providing a useful disguise to the dictatorship of the rich: 84% of Britain's wealth is controlled by 7% of the population - real democracy. We should cut through the political farce and attack the real centres of power.
7. Poverty, oppression, expensive food, police truncations, arrogant and petty bureaucrats with their red tape...it all tastes the same whichever soap powder is in parliament.
8. Voting is slapping a preservation order on inequality, corruption and mass manufactured boredom.
9. Voting is the excuse that we use to avoid the need to organise ourselves.
10. Just think, if no-one voted then there would be no more politicians!
